Status Report

- ## Draft v0.1（3/E）
  - – Check V1.0 use cases and requirements   **in progress**
  - – Investigation of implemented requirements（rough）   done
    For requirements,
  → All surveyed respondents said that they have been implemented 24.4%
  → All surveyed respondents said that they have not been implemented 22.3%
  → The answer was divided by the person who investigated   53.3%
    From this result, About 50% of the items for which the answers were divided are
    considered to be due to lack of expression, and are targeted for improvement.

*SPEC-2260 (as Homework of EG members)
  It has not been collected. Because of the end of the year, We can not get enough time. We will continue to collect.

*About Video Player（F2F@AMM-Japan-2019）
  In the V1.0 document, the description related to Video Player is divided into multimedia, Camera, etc.
→ At the moment, prepare Video Player item in the document. **done**

*Check the use cases and requirements defined in each EG(for v0.5)
→ I started looking at each EG's site.

*Requirements for each component in past F2F and SAT / EG meeting   **in progress**
  I checked past SAT meeting minutes. I'm going to check each EG' site.
